Announcement

We are listing most of our trees by diameter of stem just above the ground as found by applying the caliper. We consider this the fairer standard. In buying trees by height alone, often very whippy trees are put in. Where the height is also given it is estimated to give you an idea by the old standard. Height is estimated, but diameter is measured.

$\frac{3}{4}$ inch trees includes trees up to 1 inch
 $\frac{5}{8}$ inch trees includes trees up to $\frac{3}{4}$ inch
 $\frac{1}{2}$ inch trees includes trees up to $\frac{5}{8}$ inch
 $\frac{3}{8}$ inch trees includes trees up to $\frac{1}{2}$ inch

LOCATION

We are located on the Chicago & Alton railroad, 23 miles west of Bloomington, 25 miles southwest of Peoria. Our office and packing grounds are $2\frac{1}{2}$ miles from Mindals, on the I. T. S. (Electric.) We can deliver large shipments to that station, or smaller ones if you are not in a hurry, since we do not deliver there every day. The I. T. S. has the U. S. Express company., while the Alton R. R. over which nearly all of our shipments are made has the **National** express, which is a branch of the **American** express company.

Please State How We Shall Ship Your Goods.—In absence of such instructions we will use our best judgement, but will in no way be held responsible for method sent.

All Stock Travels at Purchaser's Risk and Expense, unless through special agreement. We will be glad, however, to help get claims through for our customers. In the thousands of shipments we have made, very few, indeed, have failed to reach our customers in good condition.

TERMS

CASH, or satisfactory reference before shipment. When requested to do so, we will ship C. O. D. by express, but we dislike to do this because it costs our customers 25c additional to return the money to us. There is no advantage to you, nor to us in shipping C. O. D. We guarantee our stock to be all right when it leaves us. If it spoils by poor handling, the carriers must pay for it. **If you find any tree of plant not all right**, when you go to plant the stock, report it **at once**, and we will, upon reasonable proof, send you stock that is all right, or return the purchase price. We want our customers to get nothing but good stock. When this is done, our part of the contract is filled. It is our aim to send out nothing except good, vital stock. If in the rush of the packing season, plants that are **not** all right get into the package, **we want you to report it**. We cannot allow claims for shortage or poor stock not made at once. Too many things may operate to spoil the best of stock, and we have no control over these things after stock leaves our hands. We think you cannot but see the justice of this.

OUR RESPONSIBILITY

We refer you to Hopedale National Bank; Con Wright, C & A agent; R. T. Weimer, Postmaster of this place; any business house in this city, or Bradstreet's Commercial Agency, at Peoria, Ill., as to our responsibility. We want you to satisfy yourself that we are responsible and reliable. We have shipped many full carloads of stock to extensive planters and to the trade, some of them amounting to nearly \$1,000. Our facilities for supplying **parks, cemeteries, and extensive private planters** is unsurpassed, and we can refer you to many of our customers, if you wish.

We want, and insist on our customers getting a square deal, both from us, and from the carriers.

See our **Descriptive Catalog** for our method of propagating and **doing business**. It is an attractive book of 48 pages and covers. It has chapters on planting, pruning and cultivation of fruits. It has **five pages on spraying**.

HOPEDALE NURSERY, HOPEDALE, ILLINOIS.

We have had many compliments on this book. One man, (not a customer of ours,) who sent for it said, "It is worth a dollar to any man interested in plants." We do not claim this for it, but are sure you will consider it well worth keeping. **If you did not receive a copy of it, or have misplaced it, send for a copy today.**

Discounts—Where full amount of cash accompanies the order we allow the following discounts: On orders of \$10 to \$20 at **one** and **ten** rates 5 per cent. \$20 to \$30 at one and ten rates, 10 per cent. Orders for \$30 or up should be submitted for special quotations, which are net.

We release all freight shipments to \$5 per cwt., to secure lower freight rates, unless otherwise instructed. This release only applies in case of loss in transit. In case of loss, you cannot recover over \$5 per cwt., from carriers. Since less than one in one thousand packages are lost enroute, we find it pays to release. In some cases the \$5 per cwt., about pays the full loss. **South of the Ohio and east of the Mississippi Rivers**, the release value is \$3 per cwt. Customers from these states will please advise whether or not we shall release.

Plants By Mail—Postage on nursery stock and seed is 2 oz. for a cent, or 8 cents per pound. If plants are to be sent by mail, be sure to include postage enough. If too much is sent, we will return it. If not enough, we must hold for more postage. Be sure to send enough. It must be remembered that packing adds to weight. One pound of stock cannot be mailed for less than 10c to 12c, according to packing necessary.

APPLE AND CRAB, 2 and 3 YEAR

If our catalog does not describe the sort you want, write us. We can supply it quite likely. We grow about 80 of the leading varieties.

	Each	Ten	100
¾ inch, 5 to 7 feet.....	\$.35	\$3.00	\$25.00
⅝ inch, 4 to 6 feet.....	.30	2.50	20.00
½ inch, 3 to 4 feet.....	.25	2.00	15.00
⅜ inch, 2 to 4 feet.....	.20	1.50	12.00

Owing to the excessive heat and drouth of the past summer, we have only 16,000 one year whips out of a plant of 50,000 grafts. These are smaller than usual. If interested in these, send a list of your wants and we will quote.

Special Sorts—Bismark, Coreless, Stayman, Winesap, Winter Banana and Opalescent. 4 to 5 feet, @ 35c; 3 to 4 feet @ 25c; Mammoth Wild Crab, ⅝ inch at 50c each.

Our Apple Stock is 95 per cent smooth, two year stock, as nice as can be grown. Our 3 year stock is mostly new top, being cut back last spring. All of it is grown off bearing trees and true to name. We invite inspection of our stock and method of doing business.

HOPEDALE NURSERY, HOPEDALE, ILLINOIS.

Chinese Seedling—This is a new chance seedling. Quality of fruit is of the Kieffer and Garber type, but sweeter. The fruit is more apple shaped and splashed with red—not so large as either of above but a better eater. It certainly is the heaviest bearer we have ever seen. Fruits are in habit of setting so thickly as to resemble Cherries, when they get to be about that size. Fruit must be thinned or it will be small. Price, 1 year whips, 2 to 4 feet, \$1.00 each. Only a few to offer.

Matthews—The new winter pear. (Page 17 of catalog.)

GARDEN ROOTS

Asparagus—No family should be without a bed of this excellent vegetable. It does not take a large bed to supply an ordinary family. It should be planted in rich soil, crown of plants about 6 to 8 inches below the surface. In two years it may be cut. Some cut a part of it the second season. For a family bed we advise to plant it 12 to 14 inches in the row and the rows 2 or 2½ feet apart. It is so easy of culture, so long in season and so healthy and nutritious that every family should by all means have a bed, even if no more than 25 to 50 plants. Once established and it seems to last almost indefinitely, if given an opportunity to thrive.

Rhubarb or Pieplant—This is another of the good things of the garden that none should miss. Like asparagus, once established, and it lasts for many years, if given a chance. Plant in rows 3 and 4 feet apart with plants 18 to 24 inches in the row. If you will cut all the hills out but 1 or 2 crowns, using a flat spade for this, each alternate year and fill the holes thus made with manure, it will last longer, grow stronger stems and be thriftier in all ways. Try it. Not only as pie and sauce is it a family delight, but it may be used to make jam, jelly or wine.

Horse Raddish—Like both of the above, this is, if not used too heavily, conducive of health. It is not a food but a condiment. May be planted in the garden and dug annually same as any other crop, or planted in a waste place and allowed to "spread" which it will do, no matter whether you dig it each year or not.

Prices on Garden Roots

Asparagus—Conover's Colossal, each, 5c; 25 for 50c; 50 for 75c; 100 for \$1.00, 1,000 for \$5.00.

Rhubarb—Each, 10c; 3 for 25c; 12 for 75c; 100 for \$5.00.

Ornamentals

In ornamentals we can serve you as well as anybody and at a much lower price than most responsible dealers ask. If we do not list what you want, ask for it. We are in a position to supply almost any plant. We grow a small amount of many things we do not list. **Let us quote you on your wants.** If other sizes are wanted than are listed, write us. We have other sizes in stock in almost all sorts. All stock listed is transplanted and nursery grown, unless otherwise stated.

ORNAMENTAL TREES

If you are in the market for a considerable quantity of ornamentals, send your list of wants for special quotations. We have an excellent stock, and ship out annually many full carloads to extensive planters and to the trade. We please the most exacting. We feel sure we can please you, if you know your wants. We have several hundred thousand ornamentals to offer.

ROSES

Climbing Varieties

Crimson Rambler, Philadelphia Rambler, Dorothy Perkins, Lady Gay. Two year, XX grade, 35c; 3 for \$1.00; 2 year, No. 1 grade, 25c; 5 for \$1.00; 1 year, No. 1, grade, 15c; 4 for 50c.

Queen of the Prairie, Baltimore Belle, Pink Rambler, Yellow Rambler, White Rambler. Two year, No. 1 grade, 25c; 5 for \$1.00; 1 year No. 1 grade, 15c; 10 for \$1.00.

Moss Roses—White and pink, each 20c; 6 for \$1.00.

Hardy Native Roses. Mosouriana, Lucida, Blanda, either, 25c each; 10 for \$1.75.

Hybrid Perpetuals—All sorts named in catalog. Others supplied. 2 year, No. 1, each, 35c; 10 for \$2.50; 1 year No. 1, each, 20c; 10 for \$1.50.

Hybrid Tea—Baby Rambler, Gruss an Tiplitz, Clothilde, Soupert, La France, Kaiserine, A. V. Etoile, D'Lyons. 2 year, 35c; 1 year, 20c. 2 year H. T. Roses are smaller than 2 year H. P., or Climbers.

We can do all of above sorts from 2-inch pots, late in the spring, usually about May 1st. The H. T. and H. P. will, most of them, bloom freely the year they are planted. If planted in cultivated beds and kept well cared for and free from the White grubs, they will be sure to please you. Otherwise, they will disappoint. In this grade we can do any sort on the whole list, providing your order reaches us before our stock is shipped from the growers.

Prices on Small Roses—2-inch pots, any ordinary sort, each 15c; 2 for 25c; 10 for \$1.00. These prices are here, and you may select several sorts. 100 (50 or up) for \$6.00; 1,000 for \$45.00 F. O. B. Ohio, where they are grown. **purchaser paying the express**, as they must come by express. They are shipped with the ball of earth on them, as they came out of the pots. In hundred and thousand lots, not less than 10 of a sort.

If customer wants them mailed to them, postage would be about 4c with the ball of earth left on, and 1c if ball is removed.

Twenty-five plants can be mailed with clean roots for 10c. It is the safest to handle with the ball of earth.

VINES AND CLIMBERS

Cleastris, "Bitter Sweet," each 20c; 10 for \$1.25; 100 for \$8.00.

Clematis Jackmanii, Henryii and Mad. Andre, 50c; 3 for \$1.00.

Colorado Blue Spruce. Blue Specimens up to 30 inches tall, \$1 per foot in height. This includes digging and packing with ball of earth around the root.

Green Specimens. Many of these develop into a pretty blue later. Dug and bailed with ball of earth around the roots, 50 cents per root.

We advise that all of the larger Evergreens be dug with a ball of earth about the roots. They are so much surer of growing. This increases the freight on them, of course, to more than double. For this we charge the cost of so doing. This varies from a few cents per plant for the smaller plants, to as much as \$1.50 for large, 6 to 8 foot plants. We have bailed plants with 500 pounds of earth on the roots. This is the extreme, of course. We make no fixed charge for this, but vary it according to the cost, insuring you the lowest cost. Ordinarily on the 2 and 3 foot size, this cost is 10c to 15c per tree, or 5c each if 100 are bailed at once. The 3 to 4 foot size usually costs about 15c to 20c per tree in small lots. Let us know what you want and we will quote you on this cost.

Specimen Plants. We have fine, large, specimen plants in many of these sorts. If in the market, ask for what you want. We have not enough of them to list here.

Seedlings—We can supply seedlings of almost the entire list of these at a low price, if wanted for a hedging or a grove. We have collectors of these in Michigan, Illinois, and other places. Also, we have the closest connection with the largest growers of these seedlings. Our Michigan collected Arbor Vitae are now growing all over this land. These get here about the 10th of May. We quote on Arbor Vitae only. Ask for prices if interested in others.

If interested in quantities of Violets, let us figure with you on your wants.

Not all of these native Perennials are described in our descriptive catalog, but many of them are. We can collect **many other sorts.** We have stations for collecting scattered all over the United States. If we do not list what you want, write us your wants. We can more than likely supply it at a price way below that asked by the dealer, for he must secure his stock from collectors, and have a profit.

FERNS

Varieties—Royal, Ostrich Plume, Spinulous Wood, (Evergreen,) Evergreen Wood, Cinnamon, Interrupted, all hardy for out-of-door planting and large in size. Plants of either of these, 10c to 25c each, according to size.

Christmas, Bladder, Virginia Grape, Maiden Hair and several of the lesser sizes at 5 to 10c per plant, according to size. We have beds of the principal sorts to fill retail orders, but all larger orders are filled directly by our collectors. They collect best in the fall. We can do many sorts not named in this list. We simply name our best sellers. Ask for prices in 100 and 1,000 lots.

Do not forget that we can do almost any item mentioned in this catalog in a small sized plant, or in quantity at a lower price. Also, that we can do extra fine specimens, even in collected stock, at a proportionately higher price.

Fruits and Flowers

is the key which has opened the door of success to thousands of amateur gardeners. It tells exactly what to do in order to have the finest flowers, fruits and vegetables---- the proper soils, when and how to plant and water, the best fertilizers to use, how to get rid of insects----in fact everything that the amateur needs to know. It is *not a farm paper*, but a monthly garden journal edited with extreme care for the people who live in small cities, towns, villages, and on the farm, and who garden for pleasure as well as profit.

When you order your plants, seeds or bulbs, send a quarter to the florist for *Fruits and Flowers* for three years. You will then receive each month the experiences of people who have succeeded and those who have failed, telling you what to do and what not to do. The articles are short and to the point. There are no household hints, cooking recipes, fashions or stories.

SUNDRIES SEEDS

Blackberry Lily, 10 cents per oz., \$1.25 per pound; 10lbs for \$10.00.

Sorghum Seed. We have a few bushel of excellent sorghum seed. We offer this as follows: 1lb postpaid 25c; 1 pk., by express or freight, 35c.

SPRAYING MATERIALS

We use these ourselves and will supply them to our customers at a saving to them. We quote the following, of which we carry a light stock. Large quantities go forward from the factory.

Sulpho-Tobacco Soap—This is the most convenient insecticide that we know of to be used in a small way. It is poison to eating insects, is a contact poison and a fairly good fungicide, so may be used for all purposes. It is excellent for Roses, and all plants. So simple of preparation that it is no trouble to use it. Simply dissolve in hot water at the rate of one ounce to one-half gallon of water, and it is ready. Free Booklet, "The Window Garden," with each order, if you ask for it.

Price—Small cake, 3 ounces, 10c; by mail, 13c; 8 ounce cake, 20c; by mail 28c; 1 lb, 30c; by mail 48c.

Whale Oil Soap—20 cents per pound.

We have arranged with the Grasselli Chemical Company to supply their products to our patrons. They make a line of chemicals, while a little higher in cost, yet so much easier to prepare and be ready to spray, that it may be cheaper for the small orchardist to use them. Their efficiency is vouched for. It so often happens that the small orchardist will want to spray his trees, yet when it comes to mixing up Bordeaux Mixture, he falters, puts it off and perhaps does not spray at all. These mixtures are ready to mix with water and go ahead. There is no doubt about the strength of your solution. They also hold in solution much better than the home-made solutions. Many of the large orchardists use them owing to conveniencies.

We will carry but a light stock of these this season. Better order early that you may have your stock when you need it.

Grasselli Arsenate of Lead Paste, 1lb cans, 20c; 10lb pail, 15c; 100lb keg, F. O. B. Chicago, 10 cents per pound.

Grasselli Bordeaux Mixture-Paste, 1lb glass jar, 15c; 10lb pails, 10 cents per pound; 100lb kegs, F. O. B. Chicago, 6 cents per pound.

Grasselli Bordeaux-Lead Mixture-Paste, a complete spray for insects and fungoids, (not lice) 1lb glass jars, 20c; 10lb pails, 15c; 100lb kegs, F. O. B. Chicago, 9 cents per pound.

Full directions will go with each shipment. We shall be glad to have your orders.

ROPE, CORDAGE, BUILDING PAPERS, ROOFING, ETC.

We use large amounts of these ourselves in our buildings, and in packing our stock. We have arranged with two of the largest factories of cordage, who make all lines ordinarily used. We cannot quote prices on these as the price fluctuates so much. If you will advise us your wants, we will be glad to quote you the lowest prevailing prices.

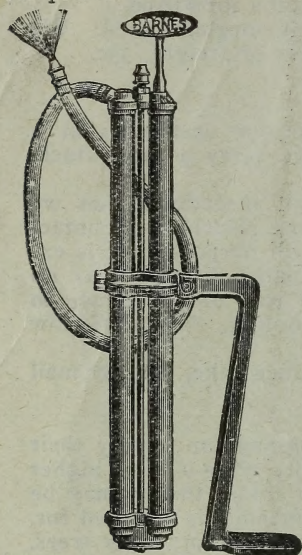

The same is true of papers. It is true that various firms make fixed prices on these, but they usually make it so high that they are safe in case of a rise in the market. Send us your wants in building lining or wrapping papers as well as in roofing and we will name a low price to you. Can send samples.

Spray Pumps

For several years our customers have been asking us for information about Spray Pumps. We have advised them the best we could. All now realize that spraying is a **necessity**, if we are to hope for success. We have been studying the spray pump question and feel that in offering the following pumps, we are offering excellent devices, and those best suited to the

HOPEDALE NURSERY, HOPEDALE, ILLINOIS.

needs of our customers. If in the market for larger commercial rigs, ask for prices.

Bucket Pump

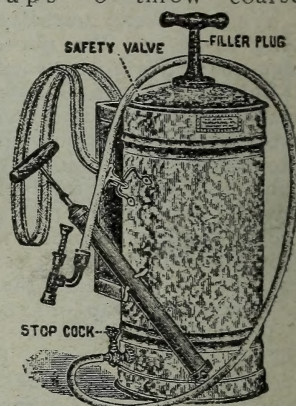

Bucket Pump, all brass, excepting the iron foot and galvanized caps and clamps. Tubes of seamless brass. This pump is excellent for washing buggies, walls, whitewashing hen houses, etc., fitted with two spray caps to throw coarse or fine spray. By removing caps a solid stream may be thrown to a considerable height. Indispensable for mixing coal oil emulsion.

Price F. O. B. factory, Mansfield, Ohio, \$3.25. Same fitted with vermored nozzle \$4.00.

COMPRESSED AIR SPRAYER

There is a growing demand for this class of sprayer. It has many advantages over the knapsack sprayer.

The operator pumps a pressure of air into the tank before starting. No further pumping is necessary until the pressure runs down. Of course there is no agitator, but as the operator carries the tank it is easily agitated. This pump is made in two styles. First, with a galvanized tank. This is cheaper than the brass tank, but cannot be used for Bordeaux mixture. We strongly recommend the copper, then it can be used for all spray materials. Very handy for spraying Potatoes, Melons, Shrubs, Roses, and small trees. By securing extra hose, trees 18 to 20 foot tall may be sprayed by attaching the nozzle to a bamboo stick. This pump like above and following one is made by the Barnes Mfg., Co., Mansfield, Ohio. Many small orchardists use this pump altogether.

Compressed Air Sprayer

PRICES

Galvanized tank fitted with 2x2 feet hose strap and vermored nozzle. 4 gallon tank, @ \$6.00. 5 gallon tank, @ \$6.50.

Copper tank, otherwise same as above. 4 gallon tank, \$7.50. 5 gallon tank, \$8.00. Three foot brass extension tube if wanted, \$1.00.

BARREL PUMP

The Barnes people have just gotten out a new spray pump that looks very good to us. It has all of the advantages of the most approved pumps on the market with several of their disadvantages eliminated. We offer it F. O. B. Mansfield, Ohio, as follows:

- No. 1. Pump only, with iron air chamber, \$10.00.
- Same with brass air chamber, \$11.50.
- No 2. With iron air chamber, 10½ feet hose, brass stop cock, 10 foot brass lined bamboo rod with vermored nozzle, \$15.00.
- Same with brass air chamber, \$17.00.
- No. 3. Iron chamber, 2 10-foot hose, 2 10-foot bamboo rods, 2 cluster vermored nozzle, \$19.00. Same with brass air chamber, \$21.00.

The Barnes people issue a nice little descriptive list which we will be glad to mail you, if interested. Or, we will be glad to answer your inquiries with further descriptions.

We furnish these and other spraying machines at about 70 per cent of the price asked by manufacturers. Let us have your order. We will take care of you promptly.
